Respected Sister,

As per the discussion we had regarding the Dynamic web application on 26th April 2021 for your esteemed organization, we are pleased to send you the quotation for the same. Kindly find the details mentioned below.

General Administration Software

DIOCON is a web application software with multilanguage for the management of the Congregations with multiple missions. The users can work comfortably in their own choice of language as the whole application is multilingual and changes the language of the application according to the preference of the language selected.It supports The DIOCON application can support multiple languages such as English, Spanish, French, Italian, etc.

The application contains multiple login credentials likeadmin login, General user login,Provincial login, Province user login,Province admin login, and multiple users login with separate user rights.

1. General Dashboard

It contains complete information of the General Team, various Commissions of the Congregation, the total Communities of the Congregation, various Institutions, details of total number of Provinces and communities andthe profileof every member of the Province.

2. General Admin login

The Superior General and her team will be able to view the entire data of the Congregation without any restrictions. The login credentials are encrypted with password and a separate KEY file to prevent unauthorized access to the database.

3. General user login

The General Admin Team will be able create separatelogin for every Province and send to them the login user name and password details. This will enable the General Team to send the Circulars of the Congregation to each Province separately. The login credentials are encrypted with password and a separate KEY file to prevent unauthorized access to the database. The user rights are assigned by the General Admin Team.

4. Provincial Login

The Provincials will be able to view and verify the entire data of the Province and also receive the messages from the Superior General.

5. The Provincial User login

The details of the members can be entered through this login.
